Kashif Dawar

MERN Stack Developer • Software Engineering Student

PROFESSIONAL SUMMARY

MERN Stack Developer with hands-on experience building full-stack web applications and Progressive Web Apps. Specialized in React.js, Node.js, Technical SEO, and PWA architecture — consistently delivering applications that achieve 90+ Google Lighthouse scores. Completed 13 blockchain and web3 courses through Binance Academy, in collaboration with ESCP Business School (Paris), EBU European Business Institute, University of Oulu, and AWS. Strong discipline and structured problem-solving developed through Cadet College Wana — one of Pakistan's most rigorous academic institutions.

PROJECTS

KASHIF.PRO — Calculator & Tools Progressive Web App

2024

Lead Developer • kashif-webdeveloper.github.io

- Delivered an installable offline-capable PWA achieving 90+ Lighthouse score by implementing Service Workers and optimized JavaScript architecture
- Enabled 10+ calculation tools — including Scientific (trigonometry, integrals, derivatives), BMI, Mortgage, Log, and Standard Deviation — in a single unified app
- Enhanced user experience with a custom light/dark theme engine and interactive Web Audio API button feedback, increasing engagement
- Eliminated framework dependencies by building with pure HTML/CSS/JS, demonstrating deep browser API and DOM mastery

Tech Stack: [JavaScript ES6+](#) • [PWA](#) • [Service Workers](#) • [Web Audio API](#) • [HTML5](#) • [CSS3](#)

Fashion Store — E-Commerce Platform

2023

Full-Stack Developer • [MERN Stack](#)

- Reduced cart abandonment risk by integrating Stripe payment gateway with Redux state management for persistent sessions and orders
- Achieved sub-1-second page load by optimizing server-side rendering and asset delivery pipeline
- Secured application with JWT-based authentication, protected routes, and role-based access for admin and customer accounts

Tech Stack: [React.js](#) • [Node.js](#) • [Express.js](#) • [MongoDB](#) • [Stripe API](#) • [Redux](#) • [JWT](#)

EXPERIENCE

Freelance Web Developer

2023 – Present

Remote / Independent • fiverr.com/s/5r2qomE • fiverr.com/s/6YrpojR

- Delivered high-performance MERN web applications with 90+ Lighthouse scores by building responsive React interfaces and optimized Node.js APIs
- Resolved complex React.js, CSS, and Node.js/Express bugs for clients — reducing downtime and improving application stability
- Improved search visibility and page speed for projects through Technical SEO, Core Web Vitals optimization, and clean code practices
- Maintained 100% client response rate on Fiverr by delivering fully documented projects with hosting setup and post-delivery support
